The RTG Layabout is simple to build, faster and easier to install with pre-constructed Ready-To-Go roof sections.

The most time consuming part of the gazebo build, the roof, has already been done for you. It's as easy as 1, 2, 3. Simply install the posts, connect the fascia and pop in the four roof sections. With easy to follow instructions, you'll have your fully finished gazebo erected in no time. The hardest thing about the Outdoorable Ready-To-Go Layabout is working out where you want it!
